## Typhoon Texas Jr. Pump House

Progressive Commercial Aquatics

The Typhoon Jr. spans approximately four acres and includes five new junior-sized versions of the parks' most popular water slides. The new area is specifically designed to provide a family-friendly level of excitement for young guests and children up to 54 inches tall. Progressive Commercial Aquatics had the pleasure of installing everything in the pump house, which features top-of-the-line equipment such as a Neptune Benson Defender filter, Accu-Tab and Acid Rite Chemical Systems, and a Chemtrol Chemical Controller.

## Franklin Wellness Center Therapy Pools

*Progressive Commercial Aquatics*

Located at the Franklin Foundation hospital in Franklin, Louisiana, the Franklin Wellness Center therapy pools aid in the physical recovery and wellness of its patients. The hospital features a rectangular 4-lane lap pool and a separate exercise pool both equipped with stair entries, ADA lifts, and other safety equipment. This project was completed in May of 2023.

## United Airlines Training Facility

*Progressive Commercial Aquatics*

United Airlines Inflight Service Training Facility has a new aquatic center equipped with a 125,000-gallon pool, where trainees can practice evacuating a cabin full of passengers onto inflatable slides and rafts during an emergency water landing. The aquatic center also includes a mock fuselage with a cabin simulator to provide hands-on flight attendant training. With an additional 56,000-square-feet of classroom and training spaces, United can instruct 600 flight attendants per month during its six-and-a-half-week course.

## Corpus Christi Splashpads

*Progressive Commercial Aquatics*

With community concerns of limiting options for a cool place to play, The City of Corpus Christi responded with a bond proposal approval that included funds to add splash pad amenities to Bill Whitt, Salinas, and Lindale parks. The splash pads are a free, safe play option that parents and children of Corpus Christi need. They will be the first of their kind for the city and we know the kids will love them!

## Club Westside Lazy River

**Progressive Commercial Aquatics**

Lush tropical landscaping surrounds over 1,000 linear feet of lazy river, 200 feet of action-river, a triple slide mountain, numerous waterfalls, rock work, and grottoes resulting in a unique member experience. A first in the United States slide feature called the High Fly allows guests to engage in a one-of-a-kind thrill similar to how a ski jumper feels at the moment of launch. This project was the merger of inspired design, creative engineering, and precise execution.

## Houston Marriott Marquis Lazy River

### Progressive Commercial Aquatics

This is about as cutting edge as it gets. The vision of a local developer was to take an acre and a half roof top deck and turn it into a water park. Centered around the lazy river in the shape of Texas, we have created a one of a kind destination property that will attract the convention and tourism to the great City of Houston. We are proud to say we took the lead on the design and construction of this phenomenal and iconic water feature.

## Woodlands Resort Lazy River

### Progressive Commercial Aquatics

The Woodlands Resort is a forest oasis that includes a 1,005-foot-long lazy river and waterpark with a vast surrounding poolside waterscape. The main recreation pool has a 30-foot tower with racing slide waterfalls, an underwater audio system, and underwater mural. The second pool is a heated lagoon-style pool. The third pool offers a kid-friendly splash pad.

## Balmorhea State Park

*Progressive Commercial Aquatics*

The extensive repair project included the creation of cofferdams, salvaging of the historic diving board and brick around the pool edge and demolition of concrete around the diving board area. In addition, the existing distressed wall and backfill was removed, a new footing foundation was installed, backfill was replaced and a new wall was constructed.

## Bastrop State Park

### Progressive Commercial Aquatics

The extensive renovations, which cost the state park system about \$500,000, replaced the plumbing, mechanical equipment, chlorination system and resurfaced all three sections of the pool. Visitors will also notice new handrails, ladders, and a wheelchair lift. The pool has been a main attraction at the state park since it was completed in 1937. For the past six seasons, the pool has been operated by the Bastrop YMCA, which supplies lifeguards, offers swim lessons, summer day camps, and community events.
